Dutch Gold is the only British stallion to WIN the British Novice Eventing Championships as a 7 year old (Intermediate-level course), as well as represent the country in the Olympics as a Grand Prix Dressage horse. His temperament was so extraordinary that the day after he won the Novice Championships, he was put on a boat to Holland to compete in one of his first International dressage competitions.

After Seoul Dutch Gold finally started to make himself a name as a freestyle specialist which thrilled even non-horsey people with his great crown appeal. He set new standards in choreography. In the 1988/89 World Cup season he was able to win the European League and placed 4th in the Final in

Gothenburg, a success no other British Bred horse has reached before or later. He continued his steady form to win the Kur at the 1989 European Championships in Mondorf les Bains in the pouring rain, but no medals were given then! A year later he came 5th in the World Cup Final, a success he repeated in 1992.

A horse which won 6 World Cup Qualifiers in 3 years, beating Isabell Werth in Berlin and got spontaneous applause during a breath taking freestyle in Paris could be considered a certain kind of medal candidate when the FEI decided to introduce the freestyle as the official part of the 1991 European Championships. Dutch Gold excelled, went from one movement to the other so lightly and fluently that the crowds had a hard time holding their enthusiasm until the end of the test! They had seen a real dancer of a horse and did not always agree with the judges' opinions! The remarkable British bred horse, who showed the transition from walk to canter pirouette for the first time ever, who allowed his rider to perform canter zig-zag with only one hand through some of the most difficult movements.

Dutch Gold retired at the end of 1992 having competed at Grand Prix level since 1985 and as a leading member of the British Team at the Seoul Olympics the World and European Championships every year since 1985. Although more famous for his dressage, Dutch Gold has produced many very exciting eventers. Being 3/4 Thoroughbred, he had all of the speed and stamina required for today's modern equine athletes, along with the temperament and movement for the dressage phase. He has produced many exciting eventers, including successful 3* and 4* horses.

By the famous Bronze Medal winning dressage stallion Dutch Courage, he was out of the TB mare Gold K. She also produced the Supreme Champion Hack Tenterk, who like Dutch Gold had excellent conformation.

Dutch Gold is suitable for crossing with all types of mares. He produces big, quality foals with substance, excellent temperaments and great presence. His stock inherit his beautiful paces with swing and elasticity essential requirements for today's competition horse. He has sired 2 BWBS graded stallions in Catherston Goldstorm and Dutch Dream (now exported to USA where he competed very successfully in the dressage arena) and each of these have now sired their own graded sons in Catherston Gold Eagle, Catherston Dougal (Best British Bred - British Dressage National Championships as a 4 year old) and Catherston Springsteen (International Grand Prix Dressage Stallion). Dutch Gold is becoming highly sought after as the Dam's sire, Borough Penny Z (London 2012 Olympics) is one example by Cevin Z out of Sovereign Flight who was by Dutch Gold.

Most notable of the progeny competing in 2000 was **Tina's Gold** ridden by Lucinda Fredericks.
